

JSMO's Vision and Mission

1. Welfare

Contribute to prolonging cancer patients' survival and improving their quality of life

- JSMO will contribute to improving medical care and welfare in Japan, by minimizing the social burden of cancer, enhancing cancer patients' quality of life and prolonging their survival. JSMO will also promote to standardize cancer treatment.

2. Medical Care

Promote access to appropriate medical services for cancer treatment

- JSMO will strive to ensure an environment where cancer patients can receive safe, effective, and high-quality medical care in Japan, by collaborating with other academic societies and medical institutions specializing in oncology.

3. Membership

Address members' needs

- JSMO will address the specialized and diverse needs of its members, and providing better services to them. JSMO will also realize to increase number of the memberships and simultaneously to enhance of the quality of JSMO as an academic society.

4. Education

Provide education in oncology

- JSMO will play a central role in providing education for clinical oncologists. JSMO will also contribute to the education that includes undergraduate, postgraduate, lifelong education, and other health care providers who are not specialized in cancer treatment.

5. Research

Promote cancer research

- JSMO will push forward high-quality clinical studies and translational research in the field of clinical oncology. In consequence, JSMO will also establish standard treatment and develop next-generation cancer treatment.

6. Specialists

Foster clinical oncologist

- JSMO will support clinical oncologists and establish their career paths, and will foster future innovators in the field of oncology.

7. Information

Provide accurate information on cancer

- JSMO will provide accurate and reliable up-to-date information on cancer collected in and outside Japan. JSMO will also formulate and disseminate treatment guidelines in order to enable patients to select the most appropriate treatments.

8. Organization

Strengthen administrative operations

- JSMO will strengthen its leadership of management, credibility, financial soundness, and administrative ability to carry out the missions. JSMO will also formulate future initiatives to maintain and further expand its organization.

9. International relationships

Promote international engagement

- JSMO will promote collaborations with academic societies overseas. JSMO will also contribute to provide race-specific evidence as well as global standards, and globally disseminate the information, promote education and research from an international perspective.
